

NISHANT JANGRA

Full Stack Web Developer

nishantjangra2024@gmail.com | +91 9910466488 | [LINKEDIN](#) | [GITHUB](#) | [PORTFOLIO](#)

SUMMARY

Full Stack Web Developer skilled in MERN stack with hands-on experience in building responsive and scalable web applications. Strong focus on clean UI/UX, backend development, and real-world problem solving. Built multiple production-level projects including real-time systems and interactive platforms. Active in hackathons with top rankings and certified in Python, JavaScript, AI, and SQL from Cisco Networking Academy and HackerRank.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, Python

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman

EXPERIENCE

Freelance Web Developer (Self-employed)

June 2026 - Present

- Developed responsive websites and landing pages for clients
 - Improved UI/UX and performance optimization
 - Delivered custom web solutions based on client requirements
-

PROJECTS

AnnSeva - Food Redistribution Platform

[LIVE DEMO](#)

- Built a real-time food redistribution platform using MERN stack connecting Donors, Collectors, and Drivers
- Developed role-based dashboards with secure navigation and workflow management
- Implemented OTP-based verification system for secure pickup and delivery validation
- Designed backend state machine ensuring controlled lifecycle progression of listings
- Integrated Socket.IO for real-time updates including live driver tracking and status changes

SurTaal Premium - Music Streaming App

[LIVE DEMO](#)

- Developed a full-stack music streaming application using React, Vite, Node.js, Express, and MongoDB
- Implemented real-time synchronized lyrics system with active line highlighting during playback
- Designed a custom overlay music player with dynamic UI, blur effects, and smooth transitions
- Built optimized local search system for instant song filtering without external API dependency
- Added infinite marquee animations for long titles ensuring smooth UX performance

TaskPilot – AI-Powered Project Management Platform

LIVE DEMO

- Built an AI-powered project management system enabling intelligent task planning and automation
- Developed Kanban board, task scheduling, and real-time collaboration features for teams
- Implemented AI modules including task generation, workload balancing, and dependency analysis
- Created secure REST APIs with authentication, role-based access control, and scalable backend architecture
- Designed modern dashboard UI with analytics, project insights, and productivity tracking tools

NJ Sports – Football Streaming & Highlights Platform

LIVE DEMO

- Developed a responsive football streaming and highlights platform with live match tracking
- Built personalized recommendation system based on user preferences and watch behavior
- Implemented multi-server video streaming with optimized playback for mobile-first experience
- Integrated MongoDB-based authentication with user profiles, history, and saved teams
- Designed a modern sports UI inspired by FIFA-style layouts with live scores and highlight feeds

EDUCATION

B.Tech in Electronics & Communication Engineering (ECE)

2023-2027

GL Bajaj Institute of Technology and Management

CERTIFICATIONS

- Cisco Networking Academy – Python Essentials 1 & 2 (Combined Certification)
- Cisco Networking Academy – JavaScript Essentials 1 & 2 (Combined Certification)
- Cisco Networking Academy – Introduction to Modern AI
- HackerRank – JavaScript (Basics & Intermediate)
- HackerRank – SQL (Basics & Intermediate)

ACHIEVEMENTS

- Reached Top 10 teams (Winner) in KodeMaster AI Hackathon
- Selected among Top 100 teams in Capgemini Hackathon (Top 10 (Final Round) result pending)
